## "The Mirror And The Ripper"

Found the morning liquor found the  
morning light  
Looking into the rearview mirror  
The motherfuckers are all awaiting him  
done the line

Sick and tired of fighting, all the crap  
inside

Starting a new day, breathing in the  
morning  
Got a feeling leaving something behind  
He sees the lonely, lonely, lonely, lonely  
days

Left his car out in the desert forever  
more  
He's got another life now explore  
And forever you will hear the people talk  
How they can hear his boots out in the  
cold

And the fallen will get down on his knees  
And the fallen will get down on his knees  
And forever the man in the coat  
Will cast his shadow among those who  
know the tale  
Of the gangster who shot all his demons  
for good

Then along came the mirror and the  
ripper  
What do you see in the night?  
Passing shadows that can scar your soul  
And make you feel demonized

Hear a match and see the lightning from  
the ripper

What do you have in your mind?  
We believe that he comes for another  
wicked destiny night  
Dazing in the dark the life line going cold  
in the fire

Have you asked yourself what it is that  
you see?  
Well, is it Mr. Cadillac or you?  
Walking among those who nearly found  
peace

In to the light, and out of the blue  
And the fallen will get down on his knees  
And the fallen will get down on his knees

And forever the man in the coat  
Will cast his shadow among those who  
know  
The tale of the gangster who shot all his  
demons for good

Then along came the mirror and the  
ripper  
What do you see in the night?  
Passing shadows that can scar your soul  
And make you feel demonized

Hear a match and see the lightning from  
the ripper  
What do you have in your mind?  
We believe that he comes for another  
wicked destiny night  
Dazing in the dark the life line going cold

in the fire  
Look into his eyes you'll meet a hundred  
angels cry

Face the mirror, you gonna seek another  
day  
You gonna face the mirror, you gonna  
seek another day  
You gonna face the mirror, you gonna  
seek another day  
You gonna face the mirror, you gonna  
seek another day  
You gonna ohh, going lonely home

## "Heaven Nor Hell"

Well, I've heard that the devil's walking  
around

I sold my soul way down in the dirt  
But stole it back and forever in debt

And for a moment I don't even care  
Until I feel his breath at my neck  
And maybe even you can feel it too  
He's on a strike and looking at you

Holding onto his words, but baby  
I saw an angel become the devil  
Still they look pretty good hand in hand  
Well baby, I don't need any of them  
Heaven nor hell

Well, I've heard that the morning star of  
a prince  
Was invoked on a Monday on earth  
I found his business card in the mud

And for a moment I don't even care  
Until I feel his breath at my neck  
And maybe even you can feel it too  
He's on a strike and looking at you

Holding onto his words, but baby  
I saw an angel become the devil  
Still they look pretty good hand in hand  
Well baby, I don't need any of them  
Heaven nor hell

Evil came down on earth  
And it beholds more than you love  
More than you love

Heaven don't fall on earth  
What you behold is no longer a word  
No longer a word

Well, I've heard that the devil's walking  
around  
I sold my soul way down in the dirt  
But stole it back and forever in debt

And for a moment I don't even care  
Until I feel his breath at my neck  
And maybe even you can feel it too  
He's on a strike and looking at you

Holding onto his words, but baby  
I saw an angel become the devil  
Still they look pretty good hand in hand  
Well baby, I don't need any of them  
Heaven nor hell

### "Who They Are"

Unleash the breath that damned wicked  
soul  
Make the sacrifice for good  
An omen passed the flame through the  
night  
Benefit the figures face without thorns

Gaze upon thy gate  
A spirit finds a light  
Embrace it with its burning tears  
Howling, crawling, falling, inside

Beyond an bound  
The spirit rise and disappeared into the  
light

Covered by a shadow face  
Vengeances for the traitors are thine

See a fallen angel  
Raging fire glow  
Take the tale let wisdom fill  
The beginning of the end for us all

A higher form that makes us feel cold  
They said dying alone is our fault  
Forbidden and freeze the things that we  
need  
They said judgment day is upon

### "Fallen"

Feel the sadness burning in my heart.  
You left to early father love.  
So many things I should have said.

But in your mind you knew it well.  
Holding on to what I got and love.  
But things still seem so dark and cold.  
The fire is burning down my happiness.  
But I will rise.

So proud and strong you truly were,  
I took it with me as a tool.  
A gift from father to his only son.  
Watching over me with eagle eyes.  
You gave me freedom to a life,  
Where dreams are born and truly  
became real.

See me falling, yeah down and lonely.  
Are the angels on their way? I'm in the  
dirt.

Hear me screaming, see me bleeding.  
'Cause the day's no more the same  
without you.

Promise me my son you always will,  
Cherish what you love believing in.  
Never lose your values, stand up for the  
day.

Oh dear father I thank you for the years.  
I'm writing this song on your desk.  
Together we can make it through the  
day.

See me falling, yeah down and lonely.  
Are the angels on their way? I'm in the  
dirt.

Hear me screaming, see me bleeding.  
'Cause the day's no more the same  
without you.

See me falling, yeah down and lonely.  
Are the angels on their way? I'm in the dirt.

Hear me screaming, see me bleeding.  
'Cause the day's no more the same  
without you.

See me falling, yeah down and lonely.  
Are the angels on their way, I'm in the dirt.

Hear me screaming, see me bleeding.  
'Cause the day's no more the same  
without you.

### "A Better Believer"

Let her be she belongs to me  
And the moment comes when I no longer  
know your name

A lonely maiden stands beyond infernal  
fire

A prince awaits his destiny for all time  
Oh baby darling you will see  
Your blood belongs to him  
A soulless feast

Reborn by the power of the darkness  
face

A rebirth of his lover to avenge his hate  
oh baby darling you will see  
Your blood belongs to him a soulless  
feast

Heaven betrayed you  
They said that her soul could not be  
saved

A better believer

The blood his life his sword sacrificed the  
cross

Returning with a hunger by the power of  
love

Oh baby darling you will see  
Your blood belongs to him a soulless  
feast

Heaven betrayed you  
They said that her soul could not be  
saved

A better believer

Let her be she belongs to me  
And the moment comes when I no longer  
know your name

### "7 Shots"

Down on his knees he sees the devil  
weeping/whinging his tongue  
Mr. Cadillac doesn't even know he's been  
fighting his own

He's been trying shooting all the  
angels/devils inside  
Playing around with the good and the  
evil in his mind  
Alone in the desert and cold so cold

Driving back to the 10 house city  
something is wrong  
He found the killer weapon in his car on  
the floor  
Delusional the blood lost paint his mind

in a cave

Feeding monsters in the back of his head  
Killer, ripper, who are you

Take a look into the mirror then you will  
know

Heaven fire up my blood I'm waiting for  
something that's better

Welcome to a world of chaos, you've  
been caught in the light  
Saw the door to the 10 house tale 7  
shots in the night

Standing in the dark and shaking my  
own hand for a while  
Saw the angel/devil vanished out in the  
light

Breathing new air for a day to begin  
Soulless body with an empty shell  
Killer, ripper, who are you  
Take a look into the mirror then you will  
know

Heaven fire up my blood I'm waiting for  
something that's better

The price was high to pay and the  
memories are all crying like a child  
A reason for all the blood that leaked,  
and a call up for the wild  
Follow me to relentless street where all  
pain and love will die  
7 shots in the body fakes well the loaded  
mind

## "A New Day"

Felt when I walked when I walked out  
the door  
A new day will bring the peace I need  
Oh baby I'm so sorry but I leak all the  
blood  
from the past and now it turns into mud  
I still feel the devil breaths in me  
But this time I will break him piece by  
piece

Hold back your fears you're more than  
home  
Could it be that the tears no longer sad  
but true  
(could it be that the angels of tomorrow  
know)  
Break the moment into something more  
than gold  
And I realize it now, it was never meant  
to hold

Sweet as it was not forever and never to  
close  
I believe the pain was hunting me  
For all the things that should not be  
But i need a new love and for once I  
believe that it's her  
I still feel the devil breathers in me  
But this time I will break him piece by  
piece

You feel you die and then you get home  
You pray just like I would slay  
Time will heal all wounds [x2]

You bleed you see and then you get  
home  
But still I can speak the angels down  
from heaven where I slay

## "16 Dollars"

16 dollars in a back street corner is  
enough for a beautiful day  
I see a window open hearing Aerosmith  
rocking with  
Dick Brave "Walk This Way"  
I need a quick drink more volume for the  
beat  
I see the cats are playing dice

It's 7 in the morning and you lost all  
your money  
To a fat lady singing boogie woogie chili  
honey

I've been walking the streets again  
But it's the same old thing I'll do it again  
Just to see what the day will bring  
But it's the same old song I'll do it again

I'll bring you home my baby I will  
I would love to bring you home  
I would love to bring you home  
I would love to bring you home

16 hours on my back in a corner and an  
empty bottle of Jack and a bitch  
Well I'm sorry to inform you that the  
poison in my body guiding you  
To walk away from this mess

I need a quick drink more volume for the  
beat  
I see the cats are playing dice

It's 7 in the morning and you lost all  
your money  
To a fat lady singing boogie woogie chili  
honey

I've been walking the streets again  
But it's the same old thing I'll do it again  
Just to see what the day will bring  
But it's the same old song I'll do it again

I would love to bring you home

### "A Warrior's Call"

Let's get ready to rumble!

Feel the fire, he's entering the ring,  
His mindset only knows how to win,  
This Danish fighter will break you in two,  
You will feel all his power!

The Viking warrior Mikkel Kessler will  
now brand his name in the back of your  
head, yeah  
You feel the floor again,  
Unleashing his hell  
You will not even hear the bell  
Maybe you're strong but you don't stand  
a chance

Feel the power of a warrior!  
Fight, fight, fight, fight!  
Let's get ready to rumble!  
Fight, fight, fight, fight!

Breaking your record and breaking your  
bones,  
Born a warrior with a code,  
A champion feeding your face with a fist,  
You will feel all his power!

The Viking warrior Mikkel Kessler will  
now brand his name in the back of your

head, yeah  
You feel the floor again,  
Unleashing his hell  
You will not even hear the bell  
Maybe you're strong but you don't stand  
a chance

Feel the power of a warrior!  
Fight, fight, fight, fight!  
Let's get ready to rumble!  
Fight, fight, fight, fight!  
A gladiator's left hand hook  
Fight, fight, fight, fight!  
Feel the pain tomorrow!

Behold here comes the son,  
Believe it, he was born to be the chosen  
one,  
The call is for a warrior,  
His name will echo on the sea and on the  
ground

Feel the fire, he's entering the ring,  
His mindset only knows how to win,  
This Danish fighter will break you in two,

### "Magic Zone"

Hide or alone you make it feel at home  
Silence is not even there no more  
You make it feel at ease something to  
embrace  
A heart that's forever believing it

Life ain't that good that it's worth dying  
for

But baby i'll always take a bullet for you  
Hold on tight before tomorrow is gone  
A wake up call greeting me with a smile  
A new day is born and the old is behind  
Million crazy butterflies getting drunk we  
are one

I'm down on my tail but I'm up and I can  
feel it again  
Angels wings unfold and the devil sitting  
moaning alone  
I've been down but I'm back in a magic

zone

Walking through life never thought that I  
could  
Finding a soul mate and marry her too  
We're distorted but we fit like a glove  
Pleasure and pain will walk hand in hand  
No place to run take it all day by day  
What it takes what it makes let it  
breathe celebrate

### "Evelyn"

*[Greenway]*

Get off my shoulders I told you to stay  
away you're still a big part of me  
Dance with delusional angels of sin  
Kill false demons you might kill false  
angels too

That's not what we wanna do  
Together as one we do as we're told  
living together and fighting as one

Rejecting what's "good" with so called  
evil included  
The dominant mind will prove you all  
blind

Finding the balance to leave you behind  
I've learned so far controlling all the dark  
Evelyn visions in the sky, all on my  
shoulder, all in my mind

*[Poulsen]*

I still hear you sing my sweet love  
Evelyn  
In fact I'm so cold, but I made up my

mind to see where it will lead  
In fact I'm so lonely I...

*[Greenway]*

Stay away you're still a big part of me  
Dance with delusional angels of sin  
Kill false demons you might kill false  
angels too

That's not what we wanna do  
Evelyn visions in the sky, all on my  
shoulder, all in my mind

*[Poulsen]*

I still hear you sing my sweet love  
Evelyn

In fact I'm so cold, but I made up my  
mind to see where it will lead  
In fact I'm so lonely I...

Don't listen to all the bollocks  
There's nothing on either shoulder  
Spreading the fire fever into something  
more that needs ya  
Maybe you fall forever and maybe we die  
together

*[Greenway]*

Angel Evelyn I die

*[Poulsen]*

I still hear you sing my sweet love  
Evelyn  
In fact I'm so cold, but I, I made up my  
mind to see where it will lead  
In fact I'm so lonely I...

### "Being 1"

One word took the other  
and suddenly we're stronger than we  
ever could imagine  
A bond that can cut through the fire of  
hell  
Sharing one mind one heart forever

I've been holding you for a year or two  
You're the reason why I'm holding up  
And our love's gonna last forever  
We'll be dancing the streets again in  
Memphis  
I hate every sec every minute you're  
gone

For so long we been talking and sharing  
the dirt  
Been laughing at the fools who couldn't  
hear us  
Getting stronger together and falling in  
love  
And nothing in the world can separate us

### "Thanks"

We thank you people for being around  
Supporting Volbeat with love and hell fire  
Gu'fanden do we care  
You're all our brothers, sisters and our  
babies

Going out on the street again with open  
arms and fists

Sweating out all the whisky  
tømmermænd  
And the pain that comes with it  
But we know who we are and more  
Protectors of this band - oh oh oh oh  
And we know we're not alone anymore  
We got supporters in this rock 'n' roll  
band

The song is for all the ones who's singing  
out loud

Yeah! we make a lot of noise  
Refuse to sit down and be tamed  
We still think that we owe you some  
So we're making a lot of noise  
We sing it out loud we sing it out proud

Sacrificing all the things that we had  
Just to do this thing  
Not even money for some glue  
So we hang all the posters up with jam  
But we know who we are and more  
Protectors of this band - oh oh oh oh  
And we know we're not along anymore  
We got supporters in this rock 'n' roll  
band

This song is for all the ones who's singing  
out loud

Yeah! we make a lot of noise  
Refuse to sit down and be tamed  
We still think that we owe you some  
So we make a lot of noise  
We sing it out loud we sing it out proud

We thank you people for being around  
Supporting Volbeat with love and hell fire

Gu'fanden do we care  
You're all our brothers and sisters and  
our babies  
So when you sing this song out loud  
Remember it's for you, for helvede we  
are proud  
Let's all have a beer you're all our  
brothers sisters and our babies

This song is for all the ones who's singing  
out loud

Yeah! we make a lot of noise  
Refuse to sit down and be tamed  
We still think that we owe you some  
So we make a lot of noise  
We sing it out loud we sing it out proud

### **"Angelfuck"** (originally by Misfits)

Little angelfuck  
It's a shame that luck is the only thing  
Did you like the fun  
Did you like the times that I promised  
you

Let those bastards believe  
Dry your eyes and we'll leave  
She isn't lovin you anymore

Little angelfuck  
I see you going down on a fireplug  
Little angelfuck  
Size for everyone

Open wounds on your brow

Little angel in red  
She isn't lovin you anymore

Little angelfuck  
I see you going down on a fireplug  
Oh, little angelfuck  
Size for everyone

Let those bastards believe  
Dry your eyes and we'll leave  
She isn't lovin you anymore
